SUMMARY

Results-driven software engineer with a strong academic background, currently pursuing a Bachelor's in Computer Science with a Minor in Philosophy of Science at Florida State University. Proven ability to deliver high-quality results, demonstrated through roles as a Manager at Westshore Farmers Market and a Food Vendor at Firehouse Subs, where organizational skills and attention to detail were paramount.

Possesses a diverse technical skill set encompassing languages such as C++, C, C#, Python, and proficiency in web technologies including HTML/CSS and JavaScript. Experienced in frameworks like React and WordPress, with a solid foundation in developer tools such as Git, Google Cloud Platform, and various IDEs.

EDUCATION

Florida State University

Bachelor's, Computer Science

April 2021 - December 2025

- **Relevant Courses:** Data Structures 2, Full App Dev C#, Software Engineering, Parallel and Distributed Computing

CERTIFICATIONS

Github, Adobe Photoshop

PROFESSIONAL EXPERIENCE

Westshore Farmers Market LLC

Manager

Tampa, FL, USA

February 2020 - June 2022

- Westshore Fresh Market LLC prided itself on promoting sustainable agriculture and supporting local businesses
- I had the opportunity to establish and maintain strong relationships with our vendors, ensuring they had the necessary resources and support to thrive in the market

Firehouse

Floor Staff

Tampa, FL, USA

August 2019 - January 2020

- Throughout my employment at Fire House Subs I learned various skills
- Skills such as teamwork, and cleanliness were useful in managing a high-stress kitchen environment.

PROJECTS & OUTSIDE EXPERIENCE

Do Not Resuscitate

Developer

August 2023 - December 2023

- The purpose of this project was to develop a cohesive project for my CEN4090L course. Within this project I worked with 4 other group mates to develop a game in which the player defeat waves of enemies in a tower defense style. I was responsible for developing the tutorial scenes, the save data, the shop, as well as the player. Additionally, I learned c# in order to complete this project. This project taught me valuable skills in teamwork, and communication.

Sheet To Excel

Solo Developer

November 2023 - Present

- Sheet to Excel is a project that I am developing in order to assist a non profit. The purpose of this project is to convert data from resumes and transfer relevant information to an excel sheet. This project is currently in development, and will be completed by the end of the 2023. This project utilizes c++ libraries such as ftxui in order to make the conversion process simple for the user. It will be posted publicly on my github once completed.
